### **DR. DAVID BURNETT JOINS HUNTER PARTNERS**

David Burnett, MD, has joined Hunter Partners, LLC, as a senior managing director and principal. For Hunter Partners, Dr. Burnett will have primary responsibility for the firm's clinical performance improvement services.

Prior to joining Hunter Partners, Dr. Burnett was Senior Vice President of the University HealthSystem Consortium (UHC), an alliance of over 100 major academic medical centers.

During his 18 years at UHC, Dr. Burnett founded and developed its Clinical Practice Advancement Center and Clinical Data Services, which offered members assistance identifying and reducing clinical variation resulting in improved quality, safety and efficiency in their patient care. Dr. Burnett also began and directed UHC's programs related to faculty group practices which was the genesis of the Faculty Practice Solutions Center, the largest assemblage of comparative physician practice data in the U.S.

Hunter Partners is an interim management and consulting firm, founded by David Hunter. "Improving healthcare performance is increasingly dependent on clinical performance and utilization," Hunter said in making the announcement. "We are very fortunate to have David Burnett join our firm and spearhead our efforts in this area," he said.
